Subject: MGNCRE- MoE- GoI- Appreciation Letter/2022-23: Reg

Dear professor ji,

I want to express my sincere appreciation for such a profound and enlightening experience in session 2022-23. It was an enormous undertaking but went smoothly and efficiently!

I would like to highlight your remarkable achievements in the following sustainability parameters:

- 1. Green Cover on Campus:** You have made significant strides in enhancing the green cover on campus. Through dedicated efforts, numerous trees have been planted, gardens and green spaces have been developed, and effective landscaping techniques have been implemented. This has not only improved the aesthetics of the institution but has also contributed to the reduction of carbon emissions and the preservation of biodiversity.
- 2. Surface Water Harvesting:** Your commitment to sustainable water management is evident through the successful implementation of surface water harvesting techniques. By capturing rainwater and channeling it for recharging groundwater or other purposes, you significantly contributed to water conservation and reduced our reliance on external sources.
- 3. Rooftop Harvesting:** Utilizing rooftop spaces for rainwater harvesting has been a key initiative in your campus. Through the installation of rainwater collection systems, you have effectively utilized rainfall for various non-potable uses, such as irrigation, cleaning, and flushing. This approach has reduced the strain on municipal water supply and promoted efficient utilization of this valuable natural resource.
- 4. Rooftop Solar System:** Your commitment to renewable energy is demonstrated through the successful installation of a rooftop solar system. This initiative has not only reduced our carbon footprint but has also resulted in significant cost savings on electricity bills. I appreciate you on promoting clean and sustainable energy practices.
- 5. Waste Management:** You have established an effective and sustainable waste management system on our campus. Through segregation techniques, recycling initiatives, and awareness campaigns, we have encouraged responsible waste disposal among students and staff. These efforts have significantly reduced the amount of waste sent to landfills, contributing to a cleaner and healthier environment.

Furthermore, I want to highlight your dedication to promoting entrepreneurship through Student Self Help Groups. You have actively nurtured the entrepreneurial spirit among students by providing guidance, training, and resources. As a result, several Student Self Help Groups have been established, creating employment opportunities for students and making a positive impact on the local community.

We hope you will move ahead on the path of success.

Hoping this association will continue.

Subject: Letter of Appreciation for maintaining an eco-friendly campus and environmental awareness.

Respected Madam,

I appreciate your earnest efforts in making your college campus clean green and eco-friendly. I have witnessed the remarkable transformation of this campus under your leadership. You have initiated various projects such as planting trees, installing solar panels, organizing cleanliness drives, promoting recycling and composting, and creating awareness among students and staff about environmental issues. These projects have not only beautified the campus, but also improved its air quality, energy efficiency, waste management, and sustainability.

Your vision and dedication has inspired the students to become more responsible citizens of the nation. It is wonderful to see you inculcating a positive spirit among your students and teaching them how one can make a difference in one's surroundings by taking small but meaningful actions.

Thank you for being such a wonderful leader and a role model for society.
